

WATER SERVICE LINE PROJECT NOTICE

Dear Lodi Residents,

Thank you to those who have completed and returned their water service line survey. In addition to the survey, members of the RCAP staff will be in town starting August 2nd and 3rd in efforts to collect the information for those who have not completed the survey yet. They will have badges identifying them as RCAP staff. If they approach your home, please allow them to come in and complete the 5 minute, non-invasive inspection on your water service line.

If you would prefer to complete the inspection on your own, please fill out and return the survey that has been mailed to you or scan this QR code to be directed to the online survey tool.

By complying with the village and RCAP representatives, you will help provide critical information in the improvement to the health of you, your family members and neighbors.

Thank you for participating to protect the health and safety of our community!
